

I made the right choice for a **safe repair.**

“Being in an accident can be overwhelming and so can choosing a repair shop. I chose a Gold Class shop because I care about safety.”

The Gold Class™ symbol means a body shop has been trained on how to fix your car right. Just because your vehicle “looks” the same after a repair, doesn’t mean it is the same. Only 10% of repair shops meet the industry’s most stringent training requirements and achieve Gold Class status. We know how to fix your car right – so you can drive safe.

When you need a repair, put safety first and call us today.
